

## Dorsey Traw Mission Report

March & April, 2014

Isaiah 52:7 “ **How beautiful are the feet of him that bringeth good tidings... that publishes salvation...**” Ancient North Thailand was called the Kingdom of a Million Rice Fields 718 years ago. The plains and mountains between Laos and Burma was later called Siam and Thailand. In 1960, American missionaries started the church in Chiangmai City of North Thailand and the “good news” spread slowly to villages and remote hill tribes. Presently college students graduated in March. Then, in April during the hottest weather, the New Year (Lunar) is celebrated. May brings the monsoon rains.
